## EXPERIENCE

**Pluralsight** | Full Stack Intern

**Jan 2025 – Jun 2025**

*ReactJS, TypeScript, GraphQL, NodeJS, NestJS, Kafka, PostgreSQL*

*Bengaluru, Karnataka*

- Automated GDPR-compliant DSR workflow by building a self-service admin interface and robust backend services, **cutting processing time by 60%** and **saving 10+ hours/month** while ensuring code quality with TDD.
- Revamped leadership dashboards with real-time metrics to enhance decision-making and UX; delivered a modern UI, achieving **37% growth in user engagement**.
- Identified and remediated **10+ security vulnerabilities** in third-party libraries using Snyk, enhancing overall system security and stability.

**Parheeksha Business Plugger Pvt. Ltd.** | Web Developer Intern

**Oct 2023 – Nov 2023**

*HTML, CSS, ReactJS, NodeJS, ZegoCloud WebRTC*

*Bengaluru, Karnataka*

- Implemented a scalable WebRTC video calling feature with screen sharing and in-call chat, **supporting up to 50 participants** for seamless 1:1 and group communication.
- Delivered the complete feature **within a 4-week timeline**, accelerating the client's product roadmap and enabling faster go-to-market.

## PROJECTS

**404Found - Developer Networking Platform**

[Client](#) | [Server](#) | [Live](#)

*Node.js, Express, MongoDB, Mongoose, React, Tailwind CSS, Redux Toolkit, React Router*

- Developed a microservice-based developer platform with dynamic profiles, real-time chat, premium features, and secure JWT authentication.
- Designed scalable REST APIs with Express and Mongoose, integrated Razorpay payments, and automated email workflows via AWS SES and cron jobs.

**CashFlow - Fintech Banking Platform**

[GitHub](#)

*React.js, TypeScript, NextJS, Chart.js, Tailwind CSS, ShadCN, AppWrite*

- Developed an online banking web application with an integrated finance management dashboard.
- Implemented a financial SaaS system that connects to multiple bank accounts, displays transactions in real-time, allows users to transfer money to other platform users, and manages their finances altogether.

**SpringCart - eCommerce Java Backend application**

*Java, Spring Boot, Spring Data JPA, H2, Lombok*

- Engineered a Spring Boot-based eCommerce platform that manages product data through REST APIs, enabling functionalities like fetching products by ID, updating or deleting product information, and searching using keywords.
- Utilized Spring Data JPA for seamless interaction with the H2 database, performing efficient CRUD operations.

## ACHIEVEMENTS

- LeetCode** : Maximum Contest Rating of **1633**. Among **top 19.1%** of users globally.
- CodeChef**: Maximum Contest Rating of **1446 (2\*)**
